

BLACK DIAMOND Low-VOC Urethane Clearcoat

VOC 2.1

MIX 4:1

- HIGH-SOLIDS FORMULA BUILDS FAST
- DELIVERS BEAUTIFUL GLOSS, EXCEPTIONAL DOI
- GOOD FLOW AND LEVELING
- FAST SETUP AND DRY TIMES
- COMPLIANT IN ALL AREAS OF ALL STATES

Finish off Kirker's BLACK DIAMOND system with this Low-VOC Urethane Clear, which delivers a beautiful finish with extraordinary gloss and DOI. EC350 builds fast thanks to its high solids content, and features good flow and leveling compared with other HS Clears. The BLACK DIAMOND Clear resists shrinkage and dieback, and provides excellent protection.

Designed specifically for use over the new BLACK DIAMOND Low-VOC Basecoat, this clear is also suitable for application over ULTRA-GLO Single-Stage Urethanes, SPECTRA Series Candy Colors and other color systems.

EC350 meets all current and pending U.S. VOC limits, making it compliant for use in all areas of all states.
